Professional Summary

Computer Science graduate with expertise in Full-Stack Development, Machine Learning, and Software Engineering. Proficient in Python, Java, JavaScript, React.js, and SQL with hands-on experience developing scalable web applications, computer vision systems, and data-driven solutions. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and System Design.

Technical Skills

Programming Languages	Python, Java, JavaScript, SQL
Core Computer Science	Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, REST APIs, System Design Basics
Web Development	React.js, Node.js, Django, Bootstrap, HTML5, CSS3
Databases	MySQL, MongoDB, SQLite
Cloud & Tools	AWS (EC2, S3), Git, GitHub, Linux, Bash, VS Code
Machine Learning	Scikit-learn, NumPy, Pandas, Matplotlib, OpenCV, OCR, Computer Vision

Education

Bachelor of Engineering in Computer Science & Engineering Jul 2025
Aligarh College of Engineering and Technology, Aligarh, India
CGPA: 7.5

Dharam Samaj Bal Mandir Sr. Sec. School, Aligarh, India
Senior Secondary (XII): CGPA 7.2
Secondary (X): CGPA 8.5

Experience & Training

Web Development Intern Jan 2024 – Feb 2024
Dabotic India Pvt. Ltd.

- Contributed to the development of real-time web applications, including a responsive Quiz Application and Landing Page.
- Applied modern front-end development practices to deliver user-friendly and cross-browser compatible interfaces.
- Collaborated in an agile environment to deliver features under strict project deadlines.

Python Trainee (GUVI in collaboration with HCL) Jun 2023 – Sep 2023

- Completed 120+ hours of hands-on Python training covering OOP, Data Structures, Algorithms, and Problem Solving.
- Solved 150+ coding problems to strengthen analytical thinking and programming proficiency.
- Developed mini-projects utilizing file handling, exception handling, and modular programming concepts.

Technical Projects

Personal Portfolio Website (Live Demo)

- Developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase projects, certifications, technical skills, and achievements.
- Implemented interactive UI components, dynamic navigation, and responsive layouts to improve user engagement and cross-device accessibility.

Eagle Insight – Stolen Vehicle Detection & Alert System [GitHub]

- Developed a real-time stolen vehicle detection system using Python, OpenCV, and OCR achieving approximately 90% detection accuracy through image preprocessing and license plate recognition.
- Applied computer vision and machine learning techniques to improve vehicle detection and recognition performance.
- Built a live monitoring dashboard and automated alert system to trigger instant notifications for detected stolen vehicles.

Certifications & Achievements

- Full Stack Web Development Certification (Udemy)
- Python Programming Certification
- Python with AI/ML Certification
- HackerRank SQL – 3 Star Rating
- Naukri Hackathon Participation
